Work Experience

MoMo (M_Service) | #1 E-wallet in Vietnam

2025 - Present

Data Scientist

Researched and built AI fraud-detection models, designed and A/B-tested treatment strategies that reduced fraud rate and safeguarded user security.

Achievements:

- + Served as **key Data Scientist** on the award-winning **User Trust project**, designing and evaluating online safety interventions to protect a large user base from harm at scale on the MoMo app.
- + **Co-designed and conducted 10+ continuous safety interventions** targeting social-engineering scams aimed at vulnerable users, meaningfully cutting fraud rate while raising the user trust index.
- + **Developed multiple real-time fraud detection models**, reducing Account Takeover and Authorized Push Payment fraud significantly in one year.

Referee: yen.tang@msservice.com.vn (Head of AI, direct manager)

2022 - 2024

Product Data Analyst

Analyzed risk and money transfer payment product strategies, monitored product health, and proposed optimization solutions to drive key product metrics.

Achievements: Served as **lead product analyst for the company eKYC project**, achieving 100%+ of KPIs within 2 months through rigorous A/B and user testing, resulting in an increase in product security.

RMIT University, Vietnam

2024 - Mar 2025

Research Assistant

Assisted [Associate Professor Long Nguyen](#) on research into value co-creation behaviors and emerging forms of social commerce on AI-driven platforms.

Achievements: contributed to 3 international conference papers (2 as first author).

Referee: long.nguyenvanthang@rmit.edu.vn (direct supervisor)
